FASTRACK Certification Services Bangladesh

Worldwide Certification, Training and Inspection

SERVING SINCE 1999

Accredited Certification Body for internationally recognized certification, training and inspection

OUR RESOURCES

Technical Expertise

Based at our USA head office, our technical team is focused on accreditation conformance and scheme expansion which allows our international offices to offer an extensive range of certification products.

Local Account Management

Our international offices are responsible for offering a local service to our clients in respect of communications, account management and auditing.

Technology

We are at the forefront when it comes to technology. Our bespoke systems allow us to operate efficiently and effectively across the world. This type of solution allows us to communicate and complete processes in a timely and cost-effective manner.

WHAT WE DO

Management system certification

We provide management system assessment and certification to a range of internationally recognized standards including: ISO 9001, ISO 14001, ISO 22000, ISO 27001, ISO 45001, ISO 51000, FSSC 22000.

Product certification

We provide product certification including: Global Organic Textile Standard (GOTS) and Textile Exchange (GRS, OCS and RCS).

Electro-Mechanical Product certification

We provide Certification services to a range of EU and USA recognized standards including: CE Marking, UL Marking, RoHS.

Training

We provide a range of management systems, product systems and verification training on a worldwide basis.

WORLDWIDE ACCREDITATION

Accredited product certification Bodies

United Accreditation Foundation (UAF)

Accreditation Service for Certifying Bodies

amfori Business Social Compliance Initiative

Supplier Ethical Data Exchange (SEDEX)

Worldwide Responsible Accredited Production

Food Safety Management Systems

Forest Stewardship Council (FSC)

MANAGEMENT SYSTEM CERTIFICATION

ISO 9001
QUALITY
ISO 9001 is an internationally recognized standard for the quality management systems. The standard is generic in nature and caters for both the manufacturing and service industries.

ISO 14001
ENVIRONMENTAL
It provides practical tools for companies and organizations looking to identify and control their environmental impact and constantly improve their environmental performance

ISO 22000
FOOD SAFETY
The ISO 22000 family of International Standards addresses food safety management.

C-TPAT is a joint US government and trade deliberate program to build strong connections that strengthen the worldwide supply chain and border security by moving forward security in respects to transportation of merchandise, cargo, and people amid the course of the commercial shipping handle your business.

PRODUCT CERTIFICATION

OCS (ORGANIC CONTENT STANDARD)

The OCS applies to any non-food product containing 5-100 % organic material. It addresses the flow of product within and between companies, raw material verification, post-harvest processing, manufacturing, packaging and labelling, storage, handling, and shipping through the seller in the last business-to-business transaction.

GRS (GLOBAL RECYCLED STANDARD)

The GRS is an international, voluntary, full product standard that sets out requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions. The goal of the GRS is to increase use of recycled materials in products and reduce/eliminate the harm caused by its production.

GOTS (GLOBAL ORGANIC TEXTILE STANDARD)

The Global Organic Textile Standard (GOTS) is the worldwide leading textile processing standard for organic fibres through covering social, chemical and environmental requirements in every stage of processing units. The aim of this standard is to ensure atleast 70% of organic fibre, social, and environmental criteria to provide an assurance to the end of customer.

RCS (RECYCLED CLAIM STANDARD)

The Recycled Claim Standard (RCS) is an international, voluntary standard that sets requirements for third-party certification of Recycled input and chain of custody. The Recycled Claim Standard is intended for use with any product that contains at least 5% Recycled Material. Each stage of production is required to be certified from beginning to end in final business to business transaction.

CONTENT CLAIM STANDARD (CCS)

The aim of the Content Claim Standard (CCS) is to ensure the accuracy of content claims. The CCS accomplishes this goal by verifying the presence and amount of a given raw material in a final product. It provides a strong chain of custody system from the source to the final product and can be certified by GCL International Ltd.

EU PRODUCT CERTIFICATION

CE MARKING

CE Marking indicates that a product has been assessed by the Manufacturer and deemed to meet EU Safety, health and environmental protection requirement.

UL MARKING

The UL Marking a Product has been Certified to meet scientific safety, Quality or security Standards. We also continue to check Products Months and years after testing to make sure they still meet the Requirement.

RoHS

Restriction of Hazardous substances (RoHS). Also known as Directive 2002/95/EC, is a product- level compliance regulation that restricts the use of specific hazardous materials found in electrical and electronic product (EEE) and originated in the European Union . All applicable Product in the UE after July 1 2006, must adhere to RoHS compliance.

TRAINING

LEAD AUDITOR TRAINING COURSES

Management System Auditor (QMS, EMS, OHSMS, FSMS, EMS, ISMS and MDMS).

MANAGEMENT SYSTEM COURSES

ISO 45001 Awareness and Management System Implementation. ISO 27001 Awareness and Management System Implementation.

RECYCLED AND ORGANIC STANDARD COURSE

Sustainability in Recycled and Organic (GRS, RCS, OCS and R2v3).

SIX-SIGMA

Six Sigma is a set of Methodologies and tools use to Improve Business Processes by Reducing Defect and errors, minimizing variation and increasing Quality and efficiency.

CUSTOMISED & SECOND PARTY AUDITS

CUSTOMISED & SECOND PARTY AUDITS

FASTRACK is your reliable partner for Customised & Second Party Audits. FASTRACK can help to improve the performance and compliance in your supply chain with its specialist, technical experts, Inspectors and auditors. FASTRACK has experienced resources in customised & Second Party Audits, serving since 1999.

THE AIM OF THE SECOND PARTY AUDIT

- Strengthening an organization's supply chain.
- Minimize the risk and protect your company reputation.
- Increase efficiencies.
- Improve the quality within your company and in your supply chain.

ENVIRONMENTAL ASSESSMENT

INITIAL ENVIRONMENTAL EXAMINATION (IEE)

Initial Environmental Examinations (IEE) is the primary stage in the Environmental Assessment of a project. It helps to identify and quantify associated environmental liabilities so that they can be managed, suggest efficient pollution control measures & makes project more environment friendly.

ENVIRONMENTAL IMPACT ASSESSMENT (EIA)

Environmental Impact Assessment (EIA) is a tool used to assess the significant effects of a project or development proposal on the environment. The EIA process can assist in the selection of alternatives, including the selection of the best practicable and most environmentally friendly option.

ENVIRONMENTAL MANAGEMENT PLAN (EMP)

Environmental Management Plan (EMP) is a guidance document to measure and achieve compliance with the environmental protection and mitigation requirements of a project, which are typically requirements for project permits/approvals.

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA)

A process for predicting and assessing the potential environmental and social impacts of a proposed project, evaluating alternatives and designing appropriate mitigation, management and monitoring measures.

ENVIRONMENTAL INSPECTION

AIR QUALITY (INDOOR & AMBIENT) ASSESSMENT

Air quality assessment is a process used to determine the existing quality of air, to evaluate the effectiveness of control programs implemented, and to identify areas in need of restoration.

NOISE LEVEL ASSESSMENT

Noise level assessment involves taking noise measurements throughout a facility, or sections thereof, to identify areas with potential noise hazards. This Assessment helps to reveal areas of harmful noise levels and the employees who may be exposed to this risk.

TEMPERATURE & HUMIDITY LEVEL ASSESSMENT

Temperature and humidity in the workplace are primarily issues of employee comfort. Poor temperature and humidity levels can have an adverse effect on employee health. Temperature and humidity can affect the air quality within a workspace as well.

LIGHT LEVEL ASSESSMENT

Light level assessment simply means examination of the lighting conditions in the work environment. This assessment helps to identify potential hazards and provides correcting measures needed to protect the employees. Insufficient lighting in workplace reduces employee's productivity.

STACK AIR EMISSION ASSESSMENT

Stack air emission assessment is a process to measure the emission of industrial pollutants emitted into the atmosphere. These can have a detrimental effect on local air quality. It helps to demonstrate compliance against limits outlined for permitted processes and to comply with the Environmental Permitting Regulations.

ODS GAS LEAK DETECTION TEST

Temperature and humidity in the workplace are primarily issues of employee comfort. Poor temperature and humidity levels can have an adverse effect on employee health. Temperature and humidity can affect the air quality within a workspace as well.

GREENHOUSE GAS (GHG) EMISSION ASSESSMENT

A Greenhouse Gas (GHG) emissions assessment provides the basis for further initiatives in reducing climate impacts, starting with public reporting, through target setting and implementing mitigation activities.

VOC ASSESSMENT

Volatile organic compounds (VOCs) are emitted as gases from certain solids or liquids. Among the major environmental problems, VOCs has considerable contribution.

The Industries We Served

- Accessories for Different Industries
- Agriculture Machinery Manufacturer
- Aluminium
- Cement
- Food
- Footwear
- EPC Service Provider
- Gold Assaying
- ICT
- Light Engineering
- Paper
- Pharmaceuticals
- Plastic
- Power Plant
- Pre-fabricated Building Manufacturer
- Real Estate
- RMG
- Spinning
- Steel
